

## MOONDOG DIVE OUTFITTERS

Greg Mooney, of **Moondog Dive Outfitters** has spent 28 years in the yacht/dive industries, including 12 years as a high pressure life support system designer and mixed gas blending technician. With his vast experience and expertise he has outfitted compressor dive systems on some of the largest yachts in the world.

Greg's expertise carries over to scuba equipment, re-breather gear, fill stations, oxygen fill systems, recompression chambers, submersibles, and ROV's on yachts of all sizes. He is an Instructor in all levels of recreational and technical diving and is a specialist in hyperbaric logistics and operations.

Greg is also a founding member of the Oceanic Preservation Society. OPS's goal is to observe the beauty and destruction of the oceans while attempting to motivate change through media. Greg's roles also include purchasing, organizing, maintaining the dive gear and safety logistics during expeditions. During some of the more adventurous expeditions, Greg's advanced knowledge of diving is crucial in planning. A keen underwater videographer, 'Moondog' as he is commonly known, is always helpful in exploring new camera techniques with the director and helping the cameramen master the techniques necessary to create more interesting footage.

Greg was instrumental in bringing **Nitrox Solutions**, **Lauderdale Diver** and **Moondog Dive Outfitters** together. Our goal is to provide our customer base with the best personnel and service in the industry, at a competitive price.

**Greg "Moondog" Mooney.** 757 SE 17th Street PMB #958 Ft Lauderdale FL 33316 T. 954-257-4694 [moondogdive@aol.com](mailto:moondogdive@aol.com)
